DECEMBER

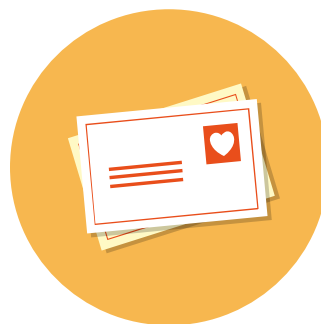

CHRISTMAS CRAFT

VOCABULARY

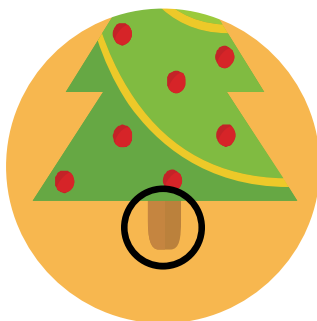

christmas tree

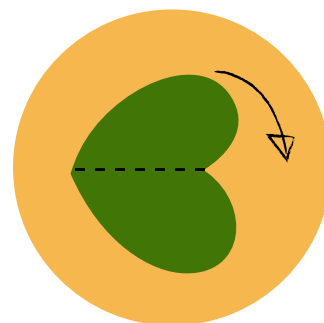

postcard

star

trunk

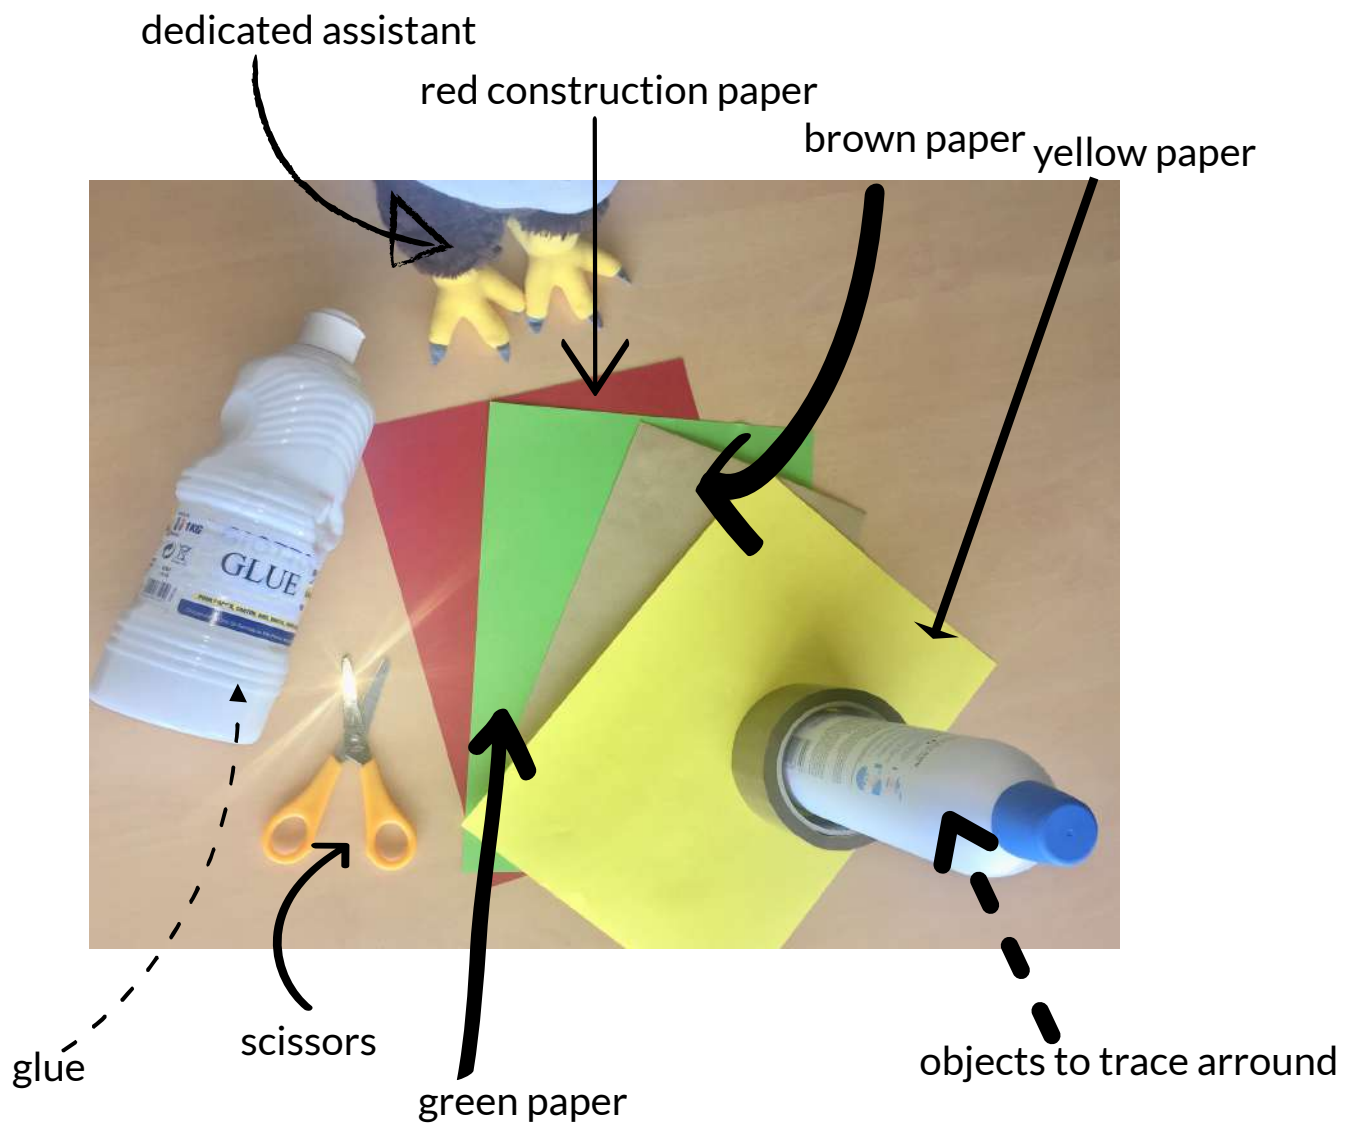

to fold

a cone

You will need :

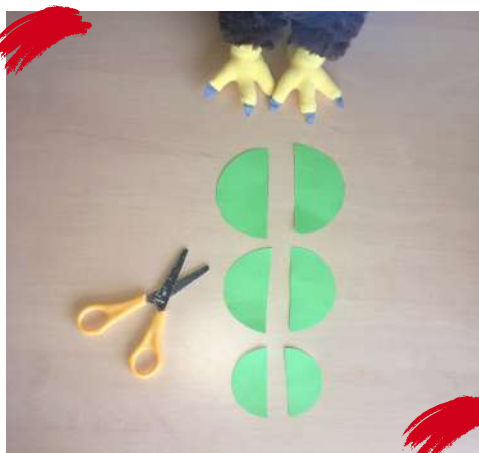

Step 1 : Create the body of your tree :

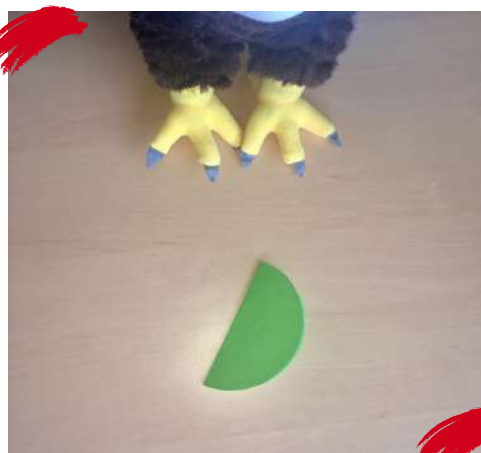

Trace circles on green paper.

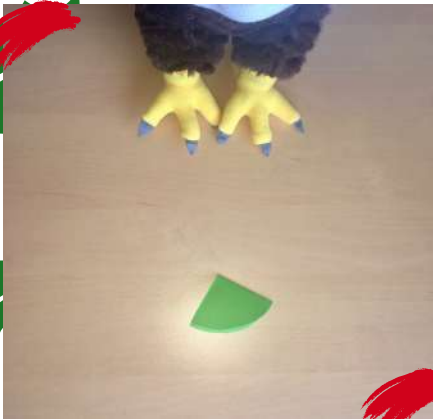

Cut the circles out of paper.

Fold the circles in half.

Cut them in half.

Fold the half circle in half (into a cone like shape).

Fold in half again.

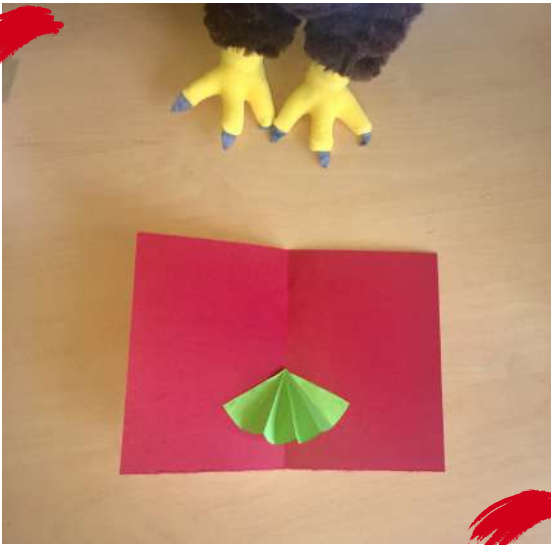

And again. Crease every fold, we want them to be as crisp as possible.

Unfold the half circles and make a mountain fold looking at the middle fold. Fold all on the right and left in a "zig-zag" manner.

Step 2 : Make your tree :

Take the folded half circles,
apply glue on the back folds on
both sides.
Glue onto the red construction
paper.

Glue the others in the same
manner one above other until
you have the desired tree
height.

Step 3 : Make the trunk :

Cut a small brown
rectangle out of brown
paper to make the trunk
of the tree.

Step 4 : Make the star :

Cut a star out of yellow paper and stick it on top of the tree. Then, glue the trunk.

You're done!

There you go !
